

CF 2009 Sale Footnotes

Lot 1 This November heifer was champion fall calf in the Maine show at the Iowa State Fair. Somewhat line bred this Tyson/Hard Core is big boned, stout and sound. Won't be huge but certainly has a great look.

Lot 2 This solid red heifer is super complete with a great look. She was the pasture favorite at Core Farms all summer. Out of 1 of our donor cows that has produced a couple of sale toppers here this heifer weaned a little green but has a chance to be a really good one.

Lot 3 Premium Blend one of the top bulls from Bushy Park and a good Jazz daughter has made a big stout high percentage heifer that will show and then make a very productive mother cow.

Lot 5 A very moderate but super nice made and well balanced black Maine purebred who happens to be a full sister to Tyson. Might show best as a commercial but will make a great Maine cow. Her and Lot 6 came from a receipt herd with minimal resources so they are greener than most but a pile of future.

Lot 6 Full sib to lot 5, really green and a little bigger package

Lot 7 Sound. Big boned and hairy this one just needs a little time and feed to become a really nice high maine show heifer

Lot 8 Moderate, complete and really attractive this Black and white heifer is out of a very consistent producer, is sure to catch your eye.

Lot 9 A little later maturing, this really sound, freaky fronted heifer will just get better every day. Dam was reserve grand Bred and owned heifer at the Springfield, Mo NJHS.

Lot 11 Really good Sooner heifer, big and stout, really sound, and out of a good producing dam that Bailey showed quite successfully. Dams full sister was 2 time Louisville champion for Brock May.

Lot 12 This solid red maintainer heifer is rapidly becoming a sale feature. Incredible profile, really sound this heifer is simply the right kind. Overloaded is a PHA free Irish Whiskey, and we have found Jazz cows are highly underrated females.

Lot 13 First of 3 sisters this is the extremely feminine female, a great profile really sound, and should have a great future. If you worry about keeping one fresh looking and sound the entire year look no further.

Lot 14 Another outstanding prospect, incredibly sound, big footed and yet as pretty as you can make one. Arguably 13 and 14 are the best two Maintainers we have ever sold. Super Duty is a Strictly Business/ Heartbeat son who is doing an outstanding job.

Lot 15 Third of the sisters this one is really nice bodied and long fronted on a great set of wheels.

Lot 16 WAY COOL! This paddy heifer out of a macho com is huge boned and really hairy. Looks to have a little flatter shoulder than a lot of the paddys which leads me to believe she could become an outstanding show heifer.

Lot 17 Kind of an interesting pedigree here, but this Tyson Heat seeker has a little more grow, and a very feminine look.

Lot 18 Very nice black brockle face maintainer, this Black Label heifer is very stout and massive, yet plenty feminine in her design

Lot 19 This is a very unique heifer, arguably the thickest ended female we have ever sold and certainly thick enough to make a market heifer yet smooth enough through her front to make a breeding female. You need to study this heifer to see how unique she is

Lot 20 Really nice patterned, moderate, and made functional this heifers mother never misses

Lot 22 Another Tyson daughter, very similar to lot 20, younger but a lot of future. Dam was a very successful show heifer for Bailey

Lot 23 This solid red Tyson heifer is also incredibly thick ended, yet really sound, and pretty feminine through her front end. And is an extremely attractive dark red.

Lot 24 We are not Steer specialists but this one is worth the trip. A Manchild he is as good hipped and topped as you will find one with a fat steer look and attractive front 1/3rd and fills his tracks on the move. Bailey wants to show him but Momma Core says we have bills to pay.

Lot 25 This Northern Improvement/ Macho heifer is one of the really big stout females in the offering who has the "show cow" look.

Lot 26 Little green (recip cow thing- same scenario as Lots 5 and 6) this 3/4 simmy heifer has all the pieces, nice profile, plenty of body, really sound to be awfully good next summer. It is nearly impossible to get a higher percentage Simmental to look like this!!! Dam is the \$20,000 Denver purchase by Bob Vermeer in Denver 2008. She is a Macho daughter bred by Troy Thomas and shown and sold by the Schaake family.

Lot 28 Talk about cool, this percentage char heifer should be great in her division. Incredibly long fronted, really maternal in her makeup. A light orange roan, have the one that is a little different in a good kinda way. Bred and raised on the Thomas ranch in south Dakota she was just weaned 5 weeks ago.

Lot 29 This young Legend heifer is like a lot of these chi heifers great profile, plenty stout, yet very maternal, for being out of some of the so called terminal steer bulls.

Lot 30 Attractive marked really thick made heifer could make a top notch market heifer and still a good steer making momma

Lot 31 Moderate thick made alias that is truly good on her feet and legs

Lot 32 Wow rhymes with cow and this is a Wow Cow. Made as good as one can be in her rib and body, let a tremendous long feminine front, on a great set of wheels. Need to see to really appreciate. We have never sold a female built as “right” as this. Not Heat Wave hairy but way good enough to win without it. I cant imagine what this one will look like a year from now as a bred. The 5 judging team coached that have been through her use her as a model.

Lot 33 Freaky fronted these blaze faced Apocalypse /Meyer heifers as so cool to look at, ultra clean fronted, yet plenty of body for their age they will make outstanding summer show heifers. She is really everything you need in a younger package. If I was to bet on that one that could get tough to turn by State Fair time it would be this one.

Lot 34 Really smooth made, clean jointed heifer with a little more grow than most of the Heat Wave progeny. She took an awesome picture but the good news is she is just that good.

Lot 35 Really nice made functional Alias with a cool look. Has a little white spot in forehead, just for a little uniqueness.

Lot 36 Moderate very nice complete heifer with just a little bit of “blue color”

Lot 37 The picture heifer that everybody calls about this brockle faced heifer is super neat from the side and impressively thick from the rear. Show her chi, comm, or market and then raise great show cattle when you are done. Her like most of the Duello cattle is a Meyer influenced on the momma side

Lot 38 see lot 33

Lot 39 Just the right amount of chrome this heifer will catch the judge’s eye and then impress with her straight lines and deep rib. A really complete problem free kind of heifer

Lot 40 The hair of a yak, the bone of a draft horse, and a killer look, make this heifer a lot of fun to look at. She is a result of a pregnant recipient purchase from Kroupas sale last year. Impressive that you can make one look like this but yet be this sound!

Lot 43 Yes she really is a Hereford,(her pedigree number is _____ if you want to see her EPD’s heavy boned big footed neat fronted and big bodied, every visitor so far has liked her! If you want a top 5 jackpot heifer every weekend here she is!!!!

Lot 44 Nicely chromed and square made very nice comm. Heifer

Lot 45 Moderate framed really big boned and stout with nice hair.

Lot 46 Hard to believe this is an Angus sired heifer, really hairy, really big boned. One of the Core Farms pasture favorites all summer. Here's An opportunity for practical genetics in a show heifer package. Kennedy showed a full brother 2 years ago that was very competitive at the weekend shows

Lot 47 This moderate true blue roan heifer has loads of muscle and put together very nicely

Lot 48 Nice heifer, very thick made, and sound

Lot 50 This registerable maine steer has a great look from all angles, long fronted, clean sheathed from the side, thick square butted from the rear, and smooth shouldered and true footed from the front. Note he is out of the same bull as the sale features Lots 13,14,15
